# NOTICE OF CLAIM FOR DAMAGES ARISING FROM BREACH OF GOOD FAITH OBLIGATIONS

**Date:** December 7, 2025 **To:** Entabeni Systems Inc. **Attn:** Mr. Erik Mogensen, CEO

**From:** Pioneerwork Inc. **Re:** Breach of Memorandum of Understanding dated September 21, 2025 (the "MOU") and Liability for Unilateral Termination of Negotiations

**1. Background** Pioneerwork Inc. ("Pioneerwork") and Entabeni Systems Inc. ("Entabeni") executed a Memorandum of Understanding on September 21, 2025, regarding the share transfer of a new company formed by the corporate split of the Earth Hopper business. Pursuant to the MOU, Pioneerwork engaged in extensive negotiations, performed due diligence, provided highly confidential financial and operational data, and drafted definitive agreements (the "Share Transfer Agreement"). On **November 11, 2025**, Entabeni's representative, Mr. Erik Mogensen, affirmatively agreed to the revised transaction structure, stating in writing: *"Yes, we can have the purchase be direct with indy."* Following this explicit affirmation, Entabeni ceased all communication ("ghosting") without explanation or just cause, despite repeated attempts by Pioneerwork to finalize the transaction.

**2. Legal Basis for Claim Governing Law:** The MOU is governed by the laws of Japan. **Duty of Good Faith:** Under Article 1, Paragraph 2 of the Civil Code of Japan, parties to a negotiation are obligated to act in good faith. Japanese jurisprudence establishes that when one party induces the other to harbor a "legitimate expectation" (*seitei na kitaï*) of a contract's conclusion, unilateral withdrawal without just cause constitutes a tortious act (*culpa in contrahendo*). **Breach:** Entabeni's conduct—specifically the reaffirmation of the deal on November 11 followed by total silence—has directly caused Pioneerwork to incur significant reliance damages (*shinrai rieki*) and opportunity costs.

**3. Protection of Confidential Information** Pioneerwork has provided Entabeni with strictly confidential trade secrets, including user demographics, churn rates, and detailed financial projections (e.g., the document titled "STRICTLY CONFIDENTIAL 2024-04-25"). As Entabeni (operating Indy Pass) is actively expanding its competing services in Japan, the retention of this data following the abandonment of the deal creates a significant misappropriation risk. Pioneerwork strictly reserves the right to seek injunctive relief and further damages should any use of this data be suspected.

**4. Demand for Compensation** Pioneerwork demands compensation for the damages incurred due to Entabeni's breach of its good faith obligations. This calculation is

conservative and excludes costs predating the MOU.

Item	Description	Amount (USD)
<b>Management Time &amp; Advisory Costs</b>	Based on 60 hours of CEO time dedicated to DD, drafting, and negotiation (including late-night calls and standby time) at a standard executive rate (\$200/hr). See Appendix A for breakdown.	<b>\$12,000.00</b>
<b>Operational Opportunity Cost</b>	Loss of revenue opportunities and delay in marketing campaigns due to strategic freeze and resource diversion during the critical season launch period.	<b>\$8,000.00</b>
<b>Settlement Premium</b>	Proxy amount for the unilateral termination. This represents less than 8% of the JPY 20,000,000 (approx. \$133,000) break fee contemplated in the draft Share Transfer Agreement for buyer's failure to close.	<b>\$10,000.00</b>
<b>Total Claim Amount</b>		<b>\$30,000.00</b>

**5. Resolution** Pioneerwork is prepared to release Entabeni from all further legal claims regarding this transaction, including claims related to the breach of trust and potential competitive misuse of confidential data, upon the payment of **\$30,000 USD**.

**6. Payment Instructions** Please remit the settlement amount to the following account no later than 25th December, 2025.

## I. Chronology of Negotiations and Evidence of "Ghosting"

The following timeline demonstrates Pioneerwork's continuous good faith efforts and Entabeni's abrupt and unjustified termination of communication (Ghosting) after confirming the deal structure. Timestamps are based on Japan Standard Time (JST).

## II. Detailed Calculation of Management Time (Reliance Interest)

Damages are calculated based on the actual time spent by CEO Yoichi Goto specifically for this transaction *after* the execution of the MOU.

Hourly Rate Basis: \$200 USD/hour

Justification: Based on the market rate for a senior executive/consultant in the Japanese tech/winter sports sector, and significantly lower than standard legal counsel rates (\$400-\$600/hr) which were saved by the CEO performing drafting duties personally.

### Breakdown of Hours (Total: 60 Hours):

1. **Legal Drafting & Strategy (25 Hours)**
  - Drafting and revising the Share Transfer Agreement (STA) to reflect Entabeni's requests.
  - Structuring "Plan B" (Direct purchase scheme) to accommodate Entabeni's delays.
  - Reviewing MOU terms and legal implications of the break-up fee clauses.
2. **Due Diligence & Financial Disclosure (15 Hours)**
  - Preparation of 5-year P/L forecast (2025-2030) specifically for Entabeni's review.
  - Extraction and formatting of confidential KPI data (user demographics, retention rates).
  - *Note: This work involved handling highly sensitive trade secrets.*
3. **Communication & Negotiations (10 Hours)**
  - Correspondence via email, WhatsApp, Facebook Messenger (with Luke Cummings and Brent Potter) and iMessage.
  - Internal coordination with stakeholders regarding Entabeni's status.
4. **Standby & Time Zone Adjustment Costs (10 Hours)**
  - Specific waiting time for scheduled/promised calls that did not happen (e.g., Nov 7th night session).
  - Adjustment of schedule to accommodate US time zones, disrupting normal

business operations.

**Total Calculation:** 60 Hours × \$200/hr = **\$12,000 USD**
